

## Remarks

The present amendments are made to more particularly point out and distinctly claim the subject matter of the invention. Applicant submits that the scope of the claims is not narrowed by these amendments. The amendment to the specification is made to add the application number of one of the priority applications for this invention. New claim 19 is supported by originally filed claim 16, from which it depends. New claims 20-23 are supported by the specification as filed, for example, Figure 8.

In light of the foregoing Amendment and Remarks, Applicant respectfully submits that the present case is in condition for allowance. A Notice to that effect is respectfully requested.

Please charge the \$69 in fees under 37 C.F.R. § 1.16(b) and (c) for extra claims to our deposit account 03-1721. An extra copy of this paper is enclosed. Please charge any other fees associated with this filing, or apply any credits, to our Deposit Account No. 03-1721.

Respectfully submitted,

Valarie B. Rosen
